TOPICS

Challenge Topic #1

Voting for a Sustainable Future

Make a 50 second video to tell your government representatives what is important to you.

If you could sway those in power running for office to pay attention to an environmental issue in your area, which office would you appeal to and what would you ask? Issues can be local, regional, national or global areas of concern.

Identify your elected official, candidate running for any office or the entire government in the country in which you live.

Examples: President, Governor, US Senator, State Representative, Prime Minister, Cabinet Member...

Examples questions:

What are you going to do to protect our water source, such as the Trinity River in Dallas, TX, as an example?

How do you propose to balance the use of Fossil Fuels and protections for our Natural Resources?

How will you protect our National Parks?

How do you propose to protect Biodiversity throughout the region?

What are you doing to incorporate young voices in climate solutions?

What is the government doing to protect endangered species?

What exactly does the government do to address and take action on environmental issues?

Or any question related to protection or balance of our environment, nature, land management and climate crisis concerns.

Eligible youth may enter either or both of the above listed film challenges.

Challenge Topic #2

Environmental Justice

Make a 50 second video to tell us your story.

Examine the circumstances where you live and one environmental impact that you've experienced.

Option 1: Show or tell us the problem and then tell us how it can or should be solved?

Option 2: Show or tell us the problem and then show us how an organization or business is already working to improve the situation.

Use the following questions as a guide or you may focus on any environmental impact that most affects you.

- What is the water quality like in your community?
- Do you have access to fresh fruits and vegetables?
- What is the air quality like in your community?
- Is there illegal dumping, excess litter or toxic waste in your neighborhood or city?

If one film or one filmmaker wins two cash prizes, the filmmaker will receive the prize at the highest cash value. (As an example, if the same filmmaker wins the People’s Choice Award (valued at \$1000) and the runner up in their age category (valued at \$500) the filmmaker would receive the highest cash prize (valued at \$1000). Filmmakers who enter the Fall 2020 Planet911 Youth Film challenge may be offered the opportunity to participate in the first **Planet911/EarthxYouth Fellowship Program**. Filmmakers receiving invitations will be selected by the Planet911 team with input from participating judges. An essay will be required for consideration.

In partnership with **Creative Visions** and under the Planet911 brand, youth winners will be invited to an educational seminar series. This series will be virtual and scheduled on one

weekday evening or one weekend day, every one to two weeks from January 15 to March 30, 2021. Students will be invited to create a TED-Ed style presentation about a given environmental topic and share it for the first time at Earthx2021 either in person or in a virtual setting TBD.

Experts and educators will work with students and share information and give assignments to include storytelling, scripting, speech writing, interview skills, film tips, speaking tips and more. Speakers will be chosen from among EarthX and Creative Visions staff, EarthxFilm Advisory council, community partners, filmmakers and friends of EarthX. Youth will choose an environmental topic related to the initial assignment and work toward their TED-Ed style presentation. Students will be able to engage in dialogue with experts and each student will have one mentor assigned for the duration of the program or will be given a variety of mentors depending on area of focus and availability of mentors.

All finalists in the Fall 2020 Planet911 Youth Film Challenge will have the opportunity to apply for this inaugural **Planet911/EarthxYouth Fellowship**. Up to 10 Fellows will be chosen. Selection will be made from the top 25 + film finalists and any additional youth specifically recommended by the Planet911 team.
